

RIVER OAKS SEWER RATE INCREASE

Due to the ever-increasing costs associated with wastewater collection, sewer system maintenance and to offset the 13.64% increase this year in treatment costs from the City of Fort Worth pursuant to the Fort Worth Wastewater Contract it has become necessary this year for the City of River Oaks to increase the City's residential sewer rates approximately 4.7% percent and the Commercial/Apartment sewer rates 8 percent. **These necessary increases in sewer rates will become effective November 1, 2018** to coincide with its November billing.

For more information contact the Water Department at 817-626-5421.

RIVER OAKS SANITATION RATE INCREASE

Due to the ever-increasing landfill charges, operational and equipment costs, the present rate of \$22.00 plus tax per residential household will not provide sufficient enough revenues to cover the annual expenditures for collection, disposal of household generated garbage and bulk service at the current level of service and including the costs associated with maintaining the sanitation truck fleet. **Therefore, it necessitates that the rate be increased from \$22.00 to \$24.00 plus tax per household effective November 1, 2018 to coincide with the November utility billing cycle.**

For more information on this year's sanitation rate increase please feel free to contact either the Water Department at 817-626-5421 or the Public Works Director at 817-626-5421 extension 322.
